

CIRCULAR COMMUNICATION TO COMMISSIONERS, CONTRACTING GOVERNMENTS
AND MEMBERS OF THE SCIENTIFIC COMMITTEE
IWC.ALL.20

Invited Participants to the Scientific Committee Meeting

The Commission requires that a provisional list of participants invited to attend the Scientific Committee under its Rule of Procedure A.6, and the Sub-committees to which they would contribute, should be circulated 60 days before the meeting, with a final list attached to the Report of the Scientific Committee [*Rep. int. Whal. Commn* 37:21 (1987)]. To minimise the risk that scientists invited in a personal capacity could be wrongly perceived to be official country representatives the institution and domicile information is separated into two distinct columns [*Rep. int. Whal. Commn* 46:39 (1996)].

Based on discussions between the Chairman of the Scientific Committee and Convenors of the Sub-committees, the provisional list for the 1999 meeting is as follows:
