

## Circular Communication to Commissioners and Contracting Governments

IWC.CCG.1479

*c.c. Accredited observers to the IWC*

### Updating National Focal Points

We are once again updating our public record of national focal points for the IWC. This information is made available on the Commission's website and used by members of the media and public wishing to make contact with individual national delegations. The most recent version is [here](#).

As new members of the UN InforMEA network, we will post the same list of our national focal points on the InforMEA website. InforMEA is a UN information-sharing portal covering a wide range of topics related to the environment. It is already used by our partner organisations in the Biodiversity Liaison Group who find it beneficial for both collaboration and outreach. This website also raises the profile of the science and stewardship mission of the IWC and increases accessibility of information on our work.

Please could you complete the boxes below to ensure that current information for your government is contained in the next version of this document. We would appreciate your responses by 1 November 2021. If we do not receive an update from you, we will assume that the information held by the Secretariat is current.

Name of individual or organisation	
E-mail address	
Postal address	
Telephone (optional)	
Social media (optional)	

Dr Rebecca Lent  
Executive Secretary
