Rapporteur's summary of the Modelling Workshop on Cetacean-Fishery Competition

In response to a request made at the October 2002 Special Meeting of the Commission and a further request made this week by several Contracting Governments, please find attached the rapporteur's summary of the IWC Scientific Committee modelling workshop on cetacean-fishery competition held in La Jolla in June last year. This summary has been drafted by the rapporteur. It has not been agreed by either the workshop participants or the Scientific Committee. Unfortunately the full workshop report is not yet finalized but it will be circulated to the Scientific Committee, Commissioners and Contracting Governments as soon as it becomes available.
