CIRCULAR COMMUNICATION TO COMMISSIONERS
AND CONTRACTING GOVERNMENTS
IWC.CCG.394

Minor Revision to Provisional Annotated Agenda

It has just been brought to my attention that was an error in the annotations to agenda item 10 – Scientific Permits in the Provisional Annotated Agenda circulated yesterday. The annotations mentioned that under JARPNII, Japan has been taking minke, Bryde's, Sei and fin whales. They have actually been taking minke, Bryde's, Sei and sperm whales. A revised agenda is attached.

Dr. Nicky Grandy
Secretary to the Commission
