Circular Communication to Commissioners and Contracting Governments
IWC.CCG.1366

Nomination of Conservation Committee Focal Points

At IWC67 in 2018 the Commission endorsed the adoption of Working Methods for the Conservation Committee. These are available online [here](#).

In accordance with provisions on membership contained in the Conservation Committee Working Methods, Contracting Governments and accredited observers are invited to nominate focal points who can be kept informed on and engage in Conservation Committee matters intersessionally. This list will be maintained by the Secretariat in liaison with Contracting Governments and observer organisations to ensure it is regularly updated. Multiple focal points (i.e. more than one contact point from a country or organisation) will be accepted.

Key communications, such as notifications regarding Conservation Committee meetings, including draft agendas, will continue to be sent by Circular to all Contracting Governments and observers.

Please send nominations for focal points to secretariat@iwc.int by Friday 2 August 2019. In the meantime, please contact the Secretariat with any queries.
