25 January 2000

CIRCULAR COMMUNICATION TO MEMBERS OF THE SCIENTIFIC COMMITTEE
IWC.SC.37

Pre-circulation of Paper SC/52/CAWS 1

The Secretary attaches a copy of paper SC/52/CAWS1 to be presented at the next Annual Meeting of the Scientific Committee, 14 - 26 June 2000 in Adelaide, Australia. The authors explain that the purpose of its early circulation is to encourage Scientific Committee members to start thinking about, and perhaps even to propose, alternative options for humpback assessments for evaluation during the Scientific Committee Meeting.

Dr. R. Gambell
Secretary to the Commission
