The Journal of Cetacean Research and Management

ISSN 1561-0713

The Journal is published by the International Whaling Commission (IWC), with at least one supplement that will contain the full report of the Scientific Committee of the IWC

The Journal has been established to publish papers on those matters of most importance to the conservation and management of whales, dolphins and porpoises, and in particular papers that are relevant to the tasks of the IWC Scientific Committee

These will include papers on:

- population assessment and trends
- population dynamics
- population biology
- taxonomy
- risk averse management strategies
- direct and indirect exploitation
- environmental changes and threats in the context of cetaceans
- scientific aspects of whale watching and sanctuaries
