1	Scientific Committee Report*	231	Reports of Intersessional Meetings
123	Annex A: List of Participants	231	Report of the Meeting of the IWC-POWER Technical Advisory Group (TAG) (SC/68B/REP/01)
126	Annex B: Agenda	259	Report of the Planning Meeting for the 2020 IWC-POWER Cruise (SC/68B/REP/02)
131	Annex C: List of Documents	273	Report of the IWC Workshop on Marine Debris: The Way Forward (SC/68B/REP/03)
140	Annex D: The AWMP/RMP <i>Implementation Simulation Trials</i> for the North Atlantic Minke Whales	311	Report of the South Asian River Dolphin Task Team Workshop (SC/68B/REP/04)
163	Annex E: Status Updates on DNA Registries	333	Report of the <i>Sotalia guianensis</i> Pre-Assessment Workshop: Main Results and Status of Current Knowledge (SC/68B/REP/05)
166	Annex F: Summary of Gray Whale Stock Structure Hypotheses	379	Report of the Workshop on Advancing Efforts to Address Underwater Noise from Shipping (SC/68B/REP/06)
175	Annex G: Fishery Bycatch and Vessel Strikes of Large Whales Entered into the Progress Report Database in 2020		
189	Annex H: State of the Cetacean Environment (SOCER) Report		
208	Annex I: Fishery Bycatch of Small Cetaceans Entered into the Progress Report Database in 2020		
219	Annex J: Direct Takes of Small Cetaceans in Japan by Type of Fishery and Prefecture Departure Port, 1997-2018		
223	Annex K: Email Correspondence Groups		

*Detailed contents for the Scientific Committee Report section (pp.1-122) are given on the next pages.

Scientific Committee Report Contents

<i>Page</i>	<i>Item</i>	<i>Page</i>	<i>Item</i>
1.	1-3. Introductory Items	42.	9. Stocks that Are or have been Suggested to be the Subject of Conservation Management Plans (CMPs)
6.	4. Cooperation with Other Organisations	43.	9.1 Stocks with existing CMPs: new information and progress with previous recommendations
9.	5. General Assessment and Modelling Issues	47.	9.2 Progress with identified priorities
9.	5.1 Evaluate the energetics-based model and the relationship between $MSYR_{1+}$ and $MSYR_{mat}$	51.	9.3 Budget requests
9.	5.2 Implications of ISTs for consideration of species' and populations' status	51.	9.4 Work plan
10.	5.3 Progress on previous recommendations and on the work plan	51.	10. Stock Definition and DNA Testing
10.	6. AWMP Implementation-Related Matters	51.	10.1 DNA testing
10.	6.1 Common minke whales off Greenland	52.	10.2 DNA data quality and genetic analysis guidelines
12.	6.2 <i>Implementation Review</i> for North Pacific gray whales (Chukotka and Makah hunts)	52.	10.3 Recommendations on the avoidance of sample depletion
13.	6.3 Carryover and interim allowance for Eastern North Pacific gray whales	53.	10.4 Advice on stock structure to other groups
14.	6.4 Progress on previous recommendations and work plan	56.	10.5 New genetic approaches of use to the Scientific Committee in addition to stock structure issues
15.	7. Stocks Subject to Aboriginal Subsistence Whaling (ASW)	57.	10.6 Other
15.	7.1 New information and recommendations	57.	10.7 Annual work plan for SDDNA
17.	7.2 Progress on previous recommendations	58.	11. Cetacean Abundance Estimates and Stock Status
17.	8. Whale Stocks not Subject to Directed Takes	58.	11.1 Review of abundance estimates and update of IWC consolidated table
17.	8.1 Comprehensive or In-Depth Assessments	61.	11.2 Review and provide advice on surveys (past and future)
23.	8.2 Potential new assessments: progress on previous recommendations and prioritised work plan (SH and NH)	61.	11.3 Methodological issues
39.	8.3 New information and work plan for other northern stocks	61.	11.4 Consideration of the status of stocks
41.	8.4 New information for other southern stocks	63.	11.5 Progress on previous recommendations
		63.	11.6 Work plan
		63.	12. Bycatch and Entanglements
		63.	12.1 IWC's Bycatch Mitigation Initiative
		65.	12.2 Review new methods and estimates of entanglement rates, risks and mortality
		66.	12.3 Review mitigation measures for preventing bycatch and entanglement
		68.	12.4 Reporting of bycatch (including small cetaceans) and large whale entanglements

68.	12.5	Collaboration on bycatch mitigation with IGOs (including FAO, Regional Fisheries Management Organisations and others)	84.	16. Small Cetaceans
70.	12.6	Provide advice on observer schemes in South Africa	84.	16.1 Previous recommendations
70.	12.7	Progress on previous recommendations	91.	16.2 Poorly documented hunts of small cetaceans for food, bait or cash and changing patterns of use including summary of workshops and databases
71.	12.8	Work plan	92.	16.3 Small cetacean Task Teams
71.	13. Ship Strikes		94.	16.4 Review of intersessional workshops on <i>Sotalia guianensis</i>
71.	13.1	Review new methods and estimates of rates of ship strikes, risk of ship strikes and mortality (including review progress on ship strike database)	95.	16.5 Review of direct takes and live captures of small cetaceans
72.	13.2	Mitigation of ship strikes in high risk areas	95.	16.6 Status of the Voluntary Fund for small cetacean conservation research
73.	13.3	Cooperation with IMO Secretariat and relevant IMO committees	96.	16.7 Possible cetacean extinctions
73.	13.4	Approach for requesting/providing marine traffic data	96.	16.8 Work plan
73.	13.5	Progress on previous recommendations	96.	17. Whale Watching
74.	13.6	Work plan	96.	17.1 Assess the impacts of whale watching and swim-with-whale operations on cetaceans
75.	14. Environmental Concerns		96.	17.2 Finalise IWC's General Principles for Whale Watching
75.	14.1	Chemical pollution	97.	17.3 Progress with regional reviews of whale watching
75.	14.2	Diseases of Concern: Focus session on infectious diseases (part 1 this year, part 2 in 2021)	98.	17.4 Collaborative work within the IWC
76.	14.3	Strandings and mortality events	99.	17.5 Progress on previous recommendations
78.	14.4	Noise	99.	17.6 Work plan
78.	14.5	Review Report of the Workshop on Marine Debris (SC/68B/Rep/03)	100.	18. Whale Sanctuaries
80.	14.6	State of the Cetacean Environment Report (SOCER) (Atlantic Ocean)	100.	18.1 Updates from relevant sub-committees on new information relevant to the SOS management plan
80.	14.7	Progress on previous recommendations	100.	18.2 New information for other sanctuaries
80.	14.8	Biennial work plan	100.	18.3 Work plan
80.	15. Ecosystem Modelling		100.	19. IWC List of Recognised Species
82.	15.1	Cooperation with CCAMLR on multi-species modelling and progress with related workshop(s)	100.	20. IWC Database and Catalogues
83.	15.2	Progress on species distribution models (SDMs) and ensemble averaging, including preparation of guidelines	100.	20.1 Guidelines for IWC catalogues and photo-ID databases
83.	15.3	Modelling of competition among whales including progress with IBEMs	100.	20.2 Progress with existing or proposed new catalogues
84.	15.4	Standing topics	102.	20.3 Progress with existing IWC databases
84.	15.5	Progress on previous recommendations	103.	20.4 Potential future IWC databases
84.	15.6	Work plan	103.	21. IWC Multinational Research Programmes and National Research Cruises that Require IWC Endorsement

- 103. 21.1 IWC-POWER and cooperation with Japan
- 105. 21.2 Southern Ocean Research Partnership (IWC-SORP)
- 106. 21.3 National cruises that require IWC oversight
- 107. 21.4 Work plan

- 107. 22. Scientific Committee Budget for 2021**
- 107. 22.1 Status of funded research
- 107. 22.2 Proposed budget for 2021

- 112. 23. Committee Priorities for the Biennium 2021-22 and Initial Agenda for 2021**

- 112. 24. Working Methods of the Committee**
- 112. 24.1 Scientific Committee Handbook
- 112. 24.2 Biennial reporting to the Commission and related matters

- 112. 24.3 Capacity building and succession plan for Scientific Committee
- 112. 24.4 Update on Date Availability requests and consideration of potential updates/clarifications
- 113. 24.5 Committee involvement in the IWC recommendations database
- 113. 24.6 Governance Review: Review of papers from the Working Group on Operational Effectiveness
- 113. 24.7 Work plan

- 113. 25. Publications**

- 114. 26. Adoption of Report**

- 114. References**
