Annex B1

Agenda

1. Chairman’s welcome and opening remarks

2. Meeting arrangements
   2.1 Appointment of rapporteurs
   2.2 Meeting procedures and time schedule
   2.3 Establishment of sub-committees
   2.4 Computing arrangements

3. Adoption of Agenda

4. Review of available data, documents and reports
   4.1 Documents submitted
   4.2 National progress reports on research
   4.3 Data collection, storage and manipulation
      4.3.1 Catches and other statistical material
      4.3.2 Progress of data coding projects
      4.3.3 Progress on program verification projects
      4.3.4 Whale marking, including artificial and natural marks

5. Cooperation with other organisations
   5.1 CMS-Scientific Council
      5.1.1 ASCOBANS
   5.2 ICES
   5.3 IATTC
   5.4 CCAMLR
   5.5 NAMMCO
   5.6 Southern Ocean GLOBEC
   5.7 FAO
      5.7.1 COFI
      5.7.2 Coordinated Working Party on Fisheries Statistics
   5.8 ICCAT
   5.9 Other

6. Comprehensive Assessment of Whale Stocks/Revised Management Procedure (CA/RMP) – General issues
   6.1 Completion of CLA program and tuning – report on progress
   6.2 Additional variance – report on progress
   6.3 Abundance estimation
      6.3.1 Report of the intersessional working group
      6.3.2 IWC-DESS (Database Estimation Software System)
      6.3.3 Estimates from multi-year surveys
      6.3.4 Other
      6.3.5 Future work
   6.4 Stock identity
      6.4.1 Intersessional activities
      6.4.2 Issues for future discussion
      6.4.3 Preparations for next year’s meeting
      6.4.4 Other information
   6.5 Effects of uncertainty in future catches
   6.6 Work plan

7. CA/RMP – Preparations for implementation
   7.1 North Pacific minke whales
      7.1.1 Review results of Implementation Simulation Trials
   7.1.2 Sightings surveys
   7.1.3 Uncertainty over incidental catches
   7.1.4 Specification of final trials
   7.2 Western North Pacific Bryde’s whales
      7.2.1 Implementation Simulation Trials
         7.2.1.1 Stock structure
         7.2.1.2 Abundance estimates
         7.2.1.3 Catches
         7.2.1.4 Biological parameters
         7.2.1.5 Specification of trials
      7.2.2 Sightings surveys
   7.3 North Atlantic minke whales
      7.3.1 Abundance
      7.3.2 Stock identity and area boundaries
      7.3.3 Sightings surveys
      7.4 Work plan

8. Aboriginal Subsistence Whaling Management Procedure (AWMP)
   8.1 Likely form of the AWMP
   8.2 General issues relating to trials
      8.2.1 Common control program
      8.2.2 Statistics and performance plots
   8.3 Review of simulation framework
      8.3.1 Density-dependent survival rate
      8.3.2 Density-dependence on the mature rather than 1+ component
      8.3.3 Self-consistency of scenario assumptions and correspondence of scenarios to data
      8.3.4 Block quotas and carryover
      8.3.5 Multi-species issues
      8.3.6 Survey frequency
   8.4 Facilitating AWMP comparison and tuning
   8.5 Description of potential procedures
   8.6 Trials
      8.6.1 Fishery type 1
      8.6.2 Fishery type 2
      8.6.3 Fishery type 3
   8.7 Planning for future selection of SLAs
   8.8 Dialogue with Commission and hunters
   8.9 Work plan (including computing needs and financial implications)
      8.9.1 B-C-B stock of bowhead whales
      8.9.2 Eastern stock of gray whales
      8.9.3 Greenland fisheries
8.9.4 St Vincent and The Grenadines
humpback whales

8.9.5 General issues
8.9.5.1 Computing requirements
8.9.5.2 Intersessional meetings and workshops
8.9.5.3 Resources for developers
8.9.5.4 Aboriginal Whaling Management Scheme - scientific aspects

9. Aboriginal subsistence whaling stock assessments
9.1 Annual review of catch limits
9.1.1 Bering-Chukchi-Beaufort (B-C-B) Seas stock of bowhead whales
9.1.1.1 Assessment
9.1.1.2 Management advice
9.1.2 Eastern North Pacific stock of gray whales
9.1.2.1 Assessment
9.1.2.2 Management advice
9.1.3 Minke whales and fin whales off Greenland
9.1.3.1 Development of a research programme for stock structure and abundance
9.1.3.2 Assessment
9.1.3.3 Management advice
9.1.4 Humpback whales off St Vincent and the Grenadines
9.1.4.1 Size of humpback whale calves
9.1.4.2 Catch information
9.1.4.3 Management advice

9.2 Bowhead whales other than the Bering-Chukchi-Beaufort Seas stock
9.2.1 Baffin Bay, Davis Strait and Hudson Bay stocks
9.2.2 Other stocks

9.3 Western North Pacific stock of gray whales

9.4 Long and short term priorities
9.4.1 Research priorities
9.4.2 Work plan

10. Comprehensive Assessment of whale stocks
10.1 Southern Hemisphere minke whales
10.1.1 JARPA – progress in addressing outstanding issues
10.1.2 VPA analyses
10.1.2.1 Abundance estimates
10.1.2.2 Other analyses, including genetics

10.2 Southern Hemisphere blue whales
10.2.1 Differentiation of subspecies
10.2.2 Abundance estimation
10.2.3 Other

10.3 North Atlantic right whales
10.3.1 Abundance, trends and vital rates
10.3.1.1 Report on intersessional progress

10.4 Southern Hemisphere humpback whales
10.4.1 Preliminary assessment
10.4.1.1 Review intersessional progress
10.4.2 Establishment of Southern Hemisphere directory and Antarctic catalogue
10.4.3 Comparative data from northern stocks on rates of increase
10.4.3.1 Report of intersessional group

10.5 Other stocks
10.6 Southern Ocean Whale and Ecosystem Research (SOWER)
10.6.1 Report on the 1998/99 cruise
10.6.2 Plans for the 1999/2000 cruise (see Annex G, Appendices 11 and 12)
10.6.3 Longer term planning

10.7 Other issues
10.7.1 Mathematically-based techniques for recognition analysis
10.7.2 Work plan

11. Environmental concerns
11.1 Pollution and contaminant issues
11.1.1 Report of Workshop
11.1.2 POLLUTION 2000+ Proposal to the Commission
11.1.3 Other pollution-related topics

11.2 Climate change and habitat
11.2.1 Report of Sightings Workshop
11.2.1.1 Cetacean components of the CCAMLR Area 48 Survey and SO-GLOBEC surveys
11.2.1.2 Use of IWC survey vessels in 2000/2001
11.2.1.3 Long term objectives and collaboration

11.2.2 SOWER 2000 Proposal to the Commission
11.2.3 Habitat use patterns (other than SOWER 2000)
11.2.4 Environmental research in the Southern Ocean Sanctuary

11.3 Arctic issues
11.4 Other concerns
11.4.1 Noise
11.4.2 Ozone depletion and UV/B
11.4.3 Habitat degradation
11.4.3.1 Workshop Proposal (Resolution 1998-6)
11.4.4 Disease and mortality events
11.4.5 Ecosystem-level effects

11.5 Work plan
11.5.1 Longer-term priorities and directions
11.5.2 Work plan for coming year

12. Small cetaceans
12.1 Status of white whales
12.1.1 New information on life history
12.1.2 Definition of ‘Stock’ or Management Unit
12.1.3 Review of current knowledge on a stock-by-stock basis
12.1.4 Priority recommendations

12.2 Status of narwhals
12.3 Bycatch mitigation - acoustic devices
12.3.1 Recent experiments
12.3.2 Implementation
12.3.3 General issues concerning acoustic alarms
12.3.3.1 Why are pingers effective?
12.3.3.2 Habituation
12.3.4 Other
12.3.5 Use with vaquita
12.3.6 Further research

12.4 Review of progress of the IWC/ASCOBANS Joint Harbour Porpoise Working Group
12.5 Review of progress of the vaquita recovery programme
12.6 Review of other presented information on small cetaceans
12.7 Takes of small cetaceans in 1998
12.8 Work plan
13. Whalewatching
13.1 Commission’s comments from last year
13.2 Review of the guidelines
  13.2.1 Report of the intersessional correspondence group
  13.2.2 Others
13.3 Assessment of short-term reactions
13.4 Assessment of long-term reactions
13.5 Comparative studies
13.6 Dolphin feeding programmes
13.7 Work plan
13.8 Other matters
14. Scientific permits
  14.1 Advice on the effect on stock(s) of scientific permit catches
  14.2 Review of results from existing permits
    14.2.1 Japan–Southern Hemisphere
    14.2.2 North Pacific
  14.3 Review of new or revised proposals
    14.3.1 JARPA–Southern Hemisphere
    14.3.2 JARPN–North Pacific
      14.3.2.1 Concerns expressed
      14.3.2.2 Points in response
      14.3.2.3 Conclusion
      14.3.2.4 JARPN Review
15. Whale sanctuaries
  15.1 Commission Resolution
16. Research proposals
  16.1 Review research results from 1998/1999
17. Data processing and computing needs for 1999/2000
18. Funding requirements for 1999/2000
19. Communications
  19.1 Communication with the Commission
  19.2 Transmission of circulars
20. Publications
21. Committee objectives and priorities
  21.1 Amendments to the Rules of Procedure
  21.2 Longer term priorities and directions
  21.3 1999/2000 work plan and initial agenda for the 2000 meeting
22. Election of officers
23. Other business
  23.1 Human health effects from the consumption of cetaceans
  23.2 Advances in non-lethal methods available for whale research
24. Adoption of report
Annex B2

Relationship Between the Commission and Scientific Committee Agendas

Items in italics are those not originally included on the Commission’s Agenda but which were raised under those Items when reporting to the Commission.

REVIEW MANAGEMENT PROCEDURE
SC/51/RMP
1 PUNT, A.E. An age-, sex- and spatially-structured operating model – with preliminary application to the Western North Pacific Bryde’s whales.
2 SHIGEMUNE, H., YAMAMURA, K., OHSUMI, S. and HATANAKA, H. The plausibility of catch records of Bryde’s whales reported by the former USSR Government.
5 SHIMADA, H. and MIYASHITA, T. Research plan for Bryde’s whale sighting cruise in the North Pacific in 1999.
6 MIYASHITA, T., HATANAKA, H. and OHSUMI, S. Some considerations on within-stock structure hypothesis for the western North Pacific Bryde’s whale stock using CPUE data.
8 GOTO, M. and PASTENE, L.A. Genetic population structure in the western North Pacific minke whale examined by mtDNA control region sequencing analysis.
9 KATO, H. and KISHIRO, T. Bryde’s whales off Kochi, south west Japan, with new information from off southwest Kyushu (East China Sea).
10 SKAUG, H.J. Combination of multiyear surveys for Northeastern Atlantic minke whales.
14 SMITH, T. On the definition of areas for the implementation of the RMP for Western North Pacific Bryde’s whales.
16 CLARKE, E.D., BURT, M.L. and BORCHERS, D.L. Simulation of JARPA surveys to test abundance estimation methods.
18 OKAMURA, H. and SHIMADA, H. Abundance estimation method using multi-year sighting data and the application to the western North Pacific Bryde’s whale data.
20 CONGDON, B.C., LENTO, G.M. and BAKER, C.S. High-resolution mtDNA identification of minke whale stocks in the North Pacific.
23 TAYLOR, B.L. Refining the definition of stocks: a discussion paper.
24 COOKE, J.G. The analysis of non-synoptic survey data, with reference to western North Pacific Bryde’s whales.

COMPREHENSIVE ASSESSMENT OF WHALE STOCKS
SC/51/CAWS
1 GANNIER, A. and DROUOT, V. New results on the distribution and relative abundance of the sperm whale in the Mediterranean Sea.
2 FELIX, F. and HAASe, B. Preliminary estimation of the southeastern Pacific humpback whale stock.
3 CLAPHAM, P.J. Predicting right whale distribution.
5 SLAY, C.K., SWARTZ, S.L., KNOWLTON, A.R., MARTIN, S., ROMAN, J., MARTINEZ, A. and
TOBIAS, J. VHF-radio tracking of a North Atlantic right whale (Eubalaena glacialis) female and calf in the calving ground: Preliminary results.

KATO, H., NOMURA, A., YOSHIDA, H. and KOMIYA, N.K. Further analysis on surfacing behavior of blue whales by video-sequences, with note on some morphological keys to discriminate sub-species.

HAUSER, N., PECKHAM, H. and CLAPHAM, P. Humpback whales in the Southern Cook Islands, South Pacific.

BURT, M.L. and BORCHERS, D.L. Minke whale abundance estimation from the 1996/97 IWC-SOWER survey in Area II.

FUJISE, Y. and OHSUMI, S. Progress of the outstanding tasks identified at the JARPA review meeting.

HAUSER, N., PECKHAM, H. and CLAPHAM, P. Humpback whales in the Southern Cook Islands, South Pacific.

KATO, H. Spatial and temporal distribution of ages of Southern Hemisphere minke whales in commercial and JARPA catches in Areas IV and V.

PASTENE, L.A. and GOTO, M. Review of the studies on stock identity in the minke whale Balaenoptera acutorostrata from the Southern Hemisphere.

POWERS, C., STEINER, L. Movements, residence times, seasonal changes in abundance and fine-scale distribution of sperm whales in the Azores archipelago.

GORDON, J., MATTHEWS, J.N. and STEINER, L. Distribution and relative abundance of sperm whales and dolphins in the Azores archipelago.

GORDON, J., MATTHEWS, J.N., LEWIS, T. and STEINER, L. Movements, residence times, seasonal changes in abundance and fine-scale distribution of sperm whales in the Azores archipelago.

MATTHEWS, J.N., STEINER, L. and GORDON, J. Further examinations of the segregation survey in Area II.

KISHINO, H. Further analysis on surfacing behavior of blue whales by video-sequences, with note on some morphological keys to discriminate sub-species.

TANAKA, S. Bias in density estimates when the speed of whale sampling vessels is reduced in high density areas.

FUJISE, Y. and OHSUMI, S. Progress of the outstanding tasks identified at the JARPA review meeting.

GORDON, J., MATTHEWS, J.N. and STEINER, L. Movements, residence times, seasonal changes in abundance and fine-scale distribution of sperm whales in the Azores archipelago.

ABORIGINAL WHALING MANAGEMENT PROCEDURES

SC/51/AWMP

1 PUNT, A.E. Some aspects related to the specification of simulation trials for fishery type 2.

2 PUNT, A.E. Further results pertinent to the evaluation of Strike Limit Algorithms for fishery type 2.

3 GIVENS, G.H. Optimising Strike Limit Algorithms: example search and results.

ABORIGINAL WHALING MANAGEMENT PROCEDURES

SC/51/AWMP

1 PUNT, A.E. Some aspects related to the specification of simulation trials for fishery type 2.

2 PUNT, A.E. Further results pertinent to the evaluation of Strike Limit Algorithms for fishery type 2.

3 GIVENS, G.H. Optimising Strike Limit Algorithms: example search and results.
ABORIGINAL SUBSISTENCE STOCK ASSESSMENT
SC/51/AS
1 PUNT, A.E. An examination of a stochastic population dynamics model for the Bering-Chukchi-Beaufort Seas stock of bowhead whales.
2 BUTTERWORTH, D.S. and PUNT, A.E. A bounded maximum likelihood approach to baleen whale population assessments – a more defensible manner to account for indirect information for the Bering-Chukchi-Beaufort Seas stock of bowhead whales?
4 POOLE, D. A confirmation and review of the 1998 Comprehensive Assessment of the Bering-Chukchi-Beaufort Seas stock of bowhead whales.
5 POOLE, D. and ZEH, J.E. Estimation of adult bowhead whale survival rates using Markov chain Monte Carlo methods.
6 TARPLEY, R.J., HILLMANN, D.J. and GEORGE, J.C. Accumulation and persistence of corpora albicantia in the bowhead whale ovary.
7 TARPLEY, R.J., HILLMANN, D.J. and GEORGE, J.C. Observations on ovarian morphometrics and morphology in the bowhead whale.
8 TARPLEY, R.J., HILLMANN, D.J. and GEORGE, J.C. Observations on reproductive tract morphology in an immature female bowhead whale.
10 HOBBS, R.C. and RUGH, D.J. The abundance of gray whales in the 1997/98 southbound migration in the eastern North Pacific.
